Hi

**Re: Easy and transparent Consultation Paper (attached)**

I believe it would be detrimental to remove the license categories listed on page 17 as it will give individuals the chance to carry out works without any real deterrence of both shoddy workmanship & danger to the public. Any number of these trades can cause potential hazards to the end user / public if not done correctly & as such we cannot afford to take shortcuts with installations that may cause harm.

If you would like me to nominate these dangers just shoot me an email & I will reply

Regards,  
David Sretenovic
