**Subject:** Please allow for pets in rentals

Hello,

I am the loving owner of a beautiful dog named Kaya, and a gorgeous kitty named Una. I have been struggling considerable in finding a rental that would suit my needs, as most rentals do not allow pets. These two are my family, and we are just looking for a good, safe, stable home.

Because of this, I write to you.

I support a positive approach to pets in rented homes that places responsibility for the decision to keep pets with tenants, gives access to the health and wellbeing benefits of pet ownership to tenants and reduces the number of animals abandoned each year. The Residential Tenancies Regulation should prohibit blanket 'no pets' terms from tenancy agreements except where another law prevents the keeping of pets (for instance a strata by-law) and additional terms in the standard form agreement should encourage responsible pet ownership.

### **1. A prohibition on 'no pets' clauses**

Too many landlords issue blanket 'no pets' clauses in their tenancy contracts. These blanket terms are unfair and contribute to abandonment and loss of pets. The Residential Tenancies Regulation has the ability to restrict the kinds of additional terms from being placed into an agreement. Blanket 'no pets' clauses should be made a prohibited term unless pets are restricted by another law.

### **2. An additional term on the standard form agreement which lays out a responsible pet ownership model**

Currently the standard form agreement starts with a negative default additional term against pets. This is not required by the Act and is not in keeping with modern community standards. I support a default additional term which encourages responsible pet ownership and makes clear to both tenants and landlords the responsibilities tenants have around keeping pets. This will avoid the majority of property care issue and nuisance to neighbours.

Many thanks in advance,  
Lia.
