For current owners to have a say on selecting suitable prospective unit / lot buyers on already existing strata and community schemes especially schemes with small number of lots to reduce conflicts.

Establish criteria on what type of buyers will fit in well in an existing scheme, for example: 1. type of scheme and management, 2. prospective buyers' knowledge based on their research on the running of a scheme, 3. restrictions and rights, 4. duties and obligations, 5. by-laws, 6. levies 7. committees 8. tenancy 9. useful legislations 10. Others
