To The Honourable Kevin Anderson MP,

Building Stronger Foundations – Discussion Paper Submission

Please find below my feedback on the following questions:

17. Are existing licensing regimes appropriate to be accepted as registration for some builders and building designers, such as architects, for the new scheme?

Yes.
(These schemes include eligibility requirements where evidence of necessary skills, qualifications, competency and experience, practitioner integrity and insurance coverage are mandatory.)

18. What occupations or specific activities are involved in ‘building design’ and should be in scope for the registration scheme?

Civil Engineer,
Fire Engineer,
Fire safety Engineer/ Professional,
Structural Engineer;

In addition to the aforementioned architects, builders, building designer and draftpersons.

Kind Regards,

Melissa Herrmann
