

Statement of Regulatory Intent

Charitable Fundraising Act 1991

Section 24B - Compliance Statement requirements

This statement sets out the enforcement approach that NSW Fair Trading/Department of Customer Service will take in regard to compliance with reporting requirements as set out in section 24B of the *Charitable Fundraising Act 1991* (the Act).

This only applies to NSW fundraising authority holders that are also registered with the Australian Charities and Not-for-profits Commission (ACNC), and only in regard to the period until the ACNC accepts section 24B Compliance Statements as an attachment to the ACNC Annual Information Statement (AIS).

It is anticipated that the AIS will be amended accordingly for the 2022 AIS reporting period. Until this time by complying with requirements under the AIS, eligible NSW fundraising authority holders will be considered to have met their obligations under sections 24B of the Act.

Regulators will continue to monitor the situation and engage to provide advice and assistance during this period.

Rose Webb
Commissioner for Fair Trading
Date: 1 July 2021
