Subject: Building licence changes

To fair trading department The proposed changes are the dumbest ideas possible in an industry full of uninsured & unlicensed cowboys , not to mention a flood of dirt cheap 457 workers . The drop in quality in workmanship in the last decade alone has been appalling , why don't we just dumb it right down to third world levels and get rid of tafe and apprenticeships all together.how this will create a better outcome for consumers beggars belief . What ever happened to the idea of constantly raising the standard of all trade work in this country , just doesn't seem to be in the mindset of the fair trading department .greg Fitzsimmons
