### **Easy and Transparent Trading Consultation Paper Response**

- Q1 Agree to extend licence durations.  
Q2 No  
Q3 Agree with option 2 providing three month restoration period.  
Q4 If a licence holder does this on a number of renewal periods it should be checked if they were working unlicensed and additional fees charged.  
Q5 Agree to maintain the status quo at \$10000. Owners should not be conducting work over \$10000 at all.  
Q6 Owner builders are a problem for the industry and any tradesman that work for them. Owner builder permits should be abolished or possibly only granted to tradesman in the building industry.  
Q7 Option 3 sounds reasonable.  
Q8 NA  
Q9 NA  
Q10 I do **not** support of the removal of the licence categories with the exception of 13. These occupations need specialist knowledge and the home owner needs to be able to have some confidence the person is suitable for the job. It is unfortunate that skilled tradesman have to compete against untrained, unskilled people lowering the standards across the industry. A licence holder is more likely to also have the correct insurances and conduct themselves more professionally. Removing the licences is a major step in the wrong direction.  
Q11 No  
Q13 Yes  
Q14 Unsure  
Q15 No. I agree to allow trading out of external administration and the recommended amendments. My main concern is that phoenixing is not possible.
